

Grade 3 drawing task with paper, crayons, and a board

1. Draw one circle on the board
2. Say one sentence, then pause
3. Note starts and support needed

Draw one circle in the middle like mine.

Did I use one board model, one sentence, a pause, and see children start the circle?

Point to the board circle, repeat the same line, and help the children still waiting.

After class: What changed? What will I adjust?
